

## DOOR MOUNTED FOR SLIDING DOORS

Maximum security.

## 1030A AUTOMATIC DEADLOCK

1030A-1: KEYED ONE SIDE  
1030A-2: KEYED BOTH SIDES

### APPLICATION:

High security sliding doors at holding cells, medium-to-low traffic corridors and cutoff doors. Sliding door normally requires a Model 1300 Track Set.

### FUNCTION:

Key activated unlocking. Hook bolt snaplocks upon closing. Final 3/8" of door travel pushes plunger pin against door jamb and deadlocks bolt.
